

International Consortium for Hallucination Research 2023 Biannual Meeting

4th - 6th September 2023, Lecture Theatre PS/B/020, Department of Psychology, University of York, UK

Day 1 Morning

In-person registration starts from 9am

9.45am Opening remarks: Frank Larøi, Clara Humpston

10am Keynote: Quinton Deeley (King's College London)
Chair: Clara Humpston

Revelatory experiences and the structure of the self

11am Break

11.30am Symposium 1: Luke Rogers, Sarah White, Charlotte Aynsworth, Guy Dodgson, Jahnese Hamilton (Cumbria, Northumberland, Tyne and Wear NHS Foundation Trust), Rob Dudley (University of York; Cumbria, Northumberland, Tyne and Wear NHS Foundation Trust)
Chair: Susan Rossell

Towards a better understanding of multi-sensory and multi-modal hallucinations and their treatment

1pm Lunch

Day 1 Afternoon

2pm Symposium 2: Sohee Park (Vanderbilt University), Jasper Feyaerts (University of Ghent), Anne Giersch (Strasbourg University), Candela Donantueno (University of Lille)
Chair: Frank Larøi

Exploring the Positive Aspects of Psychosis and Schizophrenia-Spectrum Conditions: Integrating First-Person and Third-Person Perspectives on Creativity, Control, and Self-Awareness

3.30pm Symposium 3 (Hybrid): Emmanuelle Peters (King's College London), Tanya Luhrmann (Stanford University), Michael Lifshitz (McGill University), Ariel Swyer (Durham University)
Chair: Sohee Park

VOICES: a new phenomenological scale and its uses

5pm Close of Day 1

Day 2 Morning

Working group members: Please feel free to use Seminar Room PS/B/002 for discussions between 10am and 5pm

10am Existing working group presentations
Chair: Renaud Jardri

10am Emma Palmer-Cooper (University of Southampton)
Metacognition

10.15am Jacqueline Hayes (York St John University)
Perception of the Deceased

10.30am Todd Woodward (University of British Columbia), Renaud Jardri
(University of Lille)
fMRI Capture

10.45am Todd Woodward (University of British Columbia)
Cognition

11.00am General discussion

11.15am Break

11.45am New working group presentations
Chair: André Aleman

11.45am Sanne Brederoo (University Medical Centre Groningen)
Sleep and Hallucinations/Hallucinations and Linguistics

12.00am Renaud Jardri (University of Lille), Charles Fernyhough (Durham
University)
Cognitive developmental factors

12.15pm Renaud Jardri, Candela Donantueno (University of Lille), Sohee Park
(Vanderbilt University)
Creativity and hallucinations

12.30pm General discussion

1pm Lunch

Day 2 Afternoon

2pm Symposium 4: Branislava Ćurčić-Blake, André Aleman, Patricia Estañol Cayuela (University Medical Centre Groningen), Kenneth Hugdahl (University of Bergen), Renaud Jardri (University of Lille)

Chair: Clara Humpston

Role of frontal cortex in Hallucinations

3.30pm Break

4pm ICHR Working Group showcase talk: Todd Woodward (University of British Columbia)

Chair: André Aleman

How can we prove that fMRI can measure hallucination experiences?

5pm Close of Day 2

Day 2 Evening

6.30pm Conference dinner (Arrivals from 6.00pm)

Oak Room, The Principal Hotel, Station Road, York YO24 1AA

Day 3 Morning

9am Rapid fire Symposium 1

Chair: Sohee Park

9am Tom Jenkins (University of Bath): *Development of a measure of self-dehumanisation in psychosis*

9.07am Ruth Medcalf-Bell (Northumbria University): *Can misperceptions be controlled? Experimental findings from an auditory signal detection task using novel task feedback*

9.14am Georgie Paulik (Perth Voices Clinic): *Development and Validation of a Voice Content Questionnaire: Measuring Positive and Negative Content of the Dominant Voice for Voice Hearers*

9.21am Katherine Newman-Taylor (University of Southampton): *Attachment imagery as a means of testing causal links with voices and paranoia*

9.28am Peter Moseley (Northumbria University): *Non-clinical hallucinations and cognition*

9.35am Isabel Kreis (University of Oslo): *The relationship between visual hallucinations, functioning and suicidality over the course of illness: a 10-year follow-up study in first-episode psychosis*

9.42am Angela Woods (Durham University): *Command Hallucinations: A call for nuance*

9.50am Discussion

10am Keynote Speaker: Mark Hayward, University of Sussex

Chair: Frank Larøi

Changing relationships with voices: What are we learning?

11am Break

11.15am Symposium 5: Mark Hayward (University of Sussex), Samantha Bowe (University of Manchester), Bryony Sheaves (University of Oxford)

Chair: Renaud Jardri

Key advances in psychological therapies for hearing voices

12.30pm Working group presentation: Georgie Paulik (Perth Voices Clinic; Murdoch University; University of Western Australia), Craig Steel (Oxford Centre for Psychological Health), Hella Janssen, Karin van den Berg (Maastricht University), Christopher Taylor (University of Manchester; Pennine Care NHS Foundation Trust), Katherine Newman-Taylor (Southern Health NHS Foundation Trust; University of Southampton)

Chair: Clara Humpston

Working therapeutically with mental imagery in the treatment of hallucinations

1pm Lunch

Day 3 Afternoon

2pm Symposium 6: Salma Khaled, Rahma Saad (Qatar University), Raed Amro (Hamad Medical Corporation), Veena Davies (Bharathiar University), Peter Woodruff (University of Sheffield)

Chair: Peter Moseley

Hallucinations in different non-clinical contexts

3.30pm Break

4pm Rapid fire Symposium 2

Chair: Susan Rossell

4pm David Smailes (Northumbria University): *Post break-up hallucinations*

4.07pm Georgie Paulik (Perth Voices Clinic): *Effectiveness and Change Mechanisms of Imagery Rescripting for Trauma-Affected Voice Hearers: An Open Trial*

4.14pm Hollie Rivers (Northumbria University): *Investigating the association between hoarding behaviours and psychotic experiences; a secondary data analysis*

4.21pm In Won Chung (Dongguk University International Hospital), Hee Yeon Jung (SMG-SNU Boramae Medical Centre and Seoul National University College of Medicine): *Clinical characteristics of spatial location of auditory verbal hallucination assessed with clinician- rating PSYRATS-AH and self-reporting HPSVQ scale in patients with schizophrenia*

4.28pm Jacqueline Hayes (York St John University): *Felt presence and intrusive gaze: observations on a subtype of felt presence*

4.35pm Chao Fang (University of Liverpool): *Emerging findings from cross-cultural research on sensory experiences of the deceased (SED)*

4.42pm Peter Woodruff (University of Sheffield): *Brain connectivity and risk of psychosis in a Qatari sample*

4.49pm Nathan Heller (Dartmouth College): *Stroboscopic stimulation as a model of the hallucinogenic brain: evidence from alpha power, E/I balance, and signal complexity modulation*

4.56pm Discussion

5.05pm Closing remarks: Clara Humpston, Frank Larøi

5.15pm Conference ends
